

Department of Economics, Management, Society and Institutions

- profile:

n. 1 researcher, letter “b”) in accordance with law n. 240/2010, art. 24, sector 13/A2 – Economic Policy, scientific sector SECS-P/02 – Economic Policy;

- teaching, research and student support activities:

The candidate will teach courses related to economic policy issues, offered within “laurea” and master degrees as well as in PhD programmes of the Department of Economics (Dipartimento di Economia, Gestione, Società e Istituzioni) of the University of Molise. Furthermore, the candidate will give assistance to students for the preparation of their “prova finale” (final essay) and master thesis within the same courses. Finally, she/he will carry out tutoring activities. The research activity will mainly concern the analysis of the determinants of the internationalization processes and of the relevant economic policies, with particular emphasis on the empirical aspects;

- scientific productivity goals (publications, conferences, other products) and characteristics of the scientific production:

The candidate will pursue research goals consistent with highest international standards, with publications in qualified international journals, which will allow her/him to offer a significant contribution to the Department of Economics in the next VQR exercises and to quickly obtain the national qualification as associate professor;

- seat of activities: Campobasso;

- other requisites for the admission to the selection procedure, beyond those requested by art. 5 of the regulation: None;

- maximum number of publications to submit: 12;

- requested foreign language: English;

- Modalities with which the researcher will have to report the results of the work done, periodically and at the end of the contract period:

Annual report on the teaching and research activities, on the current research projects, and on the expected results in terms of publications on international journals.
