

Department of Economics

Profile:

n. 1 contract for a fixed-term researcher, type b) for the Competition Sector 13 / A2 - Economic Policy, SSD SECS-P / 02 - Economic Policy.

Program of the required didactic and research activities: The candidate will be required to teach courses in the area of economic policy within the three-year undergraduate program, the master's program and the doctoral degree at the Department of Economics of the University of Molise. She/he will also provide students with assistance in drafting undergraduate final dissertations and master theses in the aforementioned courses and will perform tutoring activities. The research activity will be addressed to the analysis of the determinants of internationalization patterns and of the economic policies aimed at addressing and favoring them, and to the analysis of the role of financial intermediation in fostering economic growth and internationalization. Particular attention will be given to the skills in developing empirical analyses of the above-described phenomena.

Scientific productivity objectives (publications, conferences, other types of products...) and qualitative features of scientific production: The candidate must have high-profile research objectives, aiming at publications in internationally high-level journals, leading her/him to provide a significant contribution in the forthcoming assessments of the quality of research of the Department of Economics.

Place of business: Campobasso.

Maximum number of publications that the candidate can submit: 12.

Foreign Language Required: English.

Procedures for the researcher to report on the results of her/his work periodically and at the end of the contract: annual report describing the didactic and research activities performed, the current research projects and the expected results in terms of publications of international relevance.
